Launmark Washer Extractor – High-Performance Industrial Laundry Solution. The Cristal Washer Extractor is a robust and efficient laundry machine designed for high-capacity washing and extraction. Built for durability and performance, it integrates advanced technology to ensure superior cleaning while optimizing water and energy consumption. This machine is ideal for industries requiring high-quality and hygienic laundry solutions, such as hotels, hospitals, resorts, commercial laundries, and institutions.

Washer Extractor

15, 20 kg

Product Detailed Description

The Launmark Washer Extractor is engineered to deliver powerful washing and extraction in a single unit, reducing operational time and increasing productivity. The machine is constructed with high-grade stainless steel for enhanced durability and corrosion resistance. With user-friendly controls and multiple wash programs, it provides flexibility to handle a wide range of fabrics and laundry loads. Designed for efficiency, the washer extractor features high-speed spin cycles that remove excess moisture, reducing drying time and energy costs. Its intelligent control panel allows operators to customize wash cycles, temperature settings, and detergent usage for optimal performance.

Applications for the Machine

The Launmark Washer Extractor is widely used across various industries, including:

Hotels & Resorts

Ensures fresh, hygienic linen and towels for guest satisfaction.

Hospitals & Healthcare Facilities

Provides sanitary cleaning for medical linens, uniforms, and patient wear.

Commercial Laundries

Handles bulk laundry operations efficiently.

Institutions & Universities

Meets the laundry demands of hostels, dormitories, and staff facilities.

Factories & Industrial Workplaces

Cleans workwear and industrial uniforms effectively.

Features of the Machine

High-Speed Spin Cycle

Improves water extraction for faster drying

Advanced Control Panel

Digital interface for easy operation and customizable wash programs.

Multiple Wash Programs

Adaptable settings for different fabric types and levels of soiling.

High-Capacity Washing & Extraction

Reduces wash & drying time.

Durable Stainless Steel Build

Corrosion-resistant, ensuring long service life

Energy & Water Efficient

Optimized consumption or cost savings

Automatic Chemical Dosing

Ensures precise detergent usage for consistent results.

Safety Features

Emergency stop, door lock system, and overload protection.

Additional features of the Machine

1

Soft-Mount

Available to suit different installation requirements.

2

Customizable Capacity

Various load sizes available to fit different laundry operations.

3

High-Speed Spin Cycle

Improves water extraction for faster drying

4

Energy & Water Efficient

Optimized consumption for cost savings

5

Durable Stainless Steel Build

Corrosion-resistant, ensuring long service life

6

Multiple Wash Programs

Adaptable settings for different fabric types and levels of soiling.

7

Automatic Chemical Dosing (optional)

Ensures precise detergent usage for consistent results.

8

Safety Features

Emergency stop, door lock system, and overload protection.

Key Role in the Industry:

The Launmark Washer Extractor plays a crucial role in the professional laundry industry by delivering efficiency, durability, and sustainability. It enables businesses to achieve hygienic laundry results while minimizing operational costs. By combining advanced technology with user-centric design, this machine enhances productivity in commercial and institutional laundry operations.

Machine Summary

The Launmark Washer Extractor is a high-performance industrial laundry machine designed to meet the demanding needs of hotels, hospitals, resorts, commercial laundries, and institutions. With its robust construction, advanced features, and energy-efficient operation, it ensures superior washing and extraction results while optimizing costs. Ideal for large-scale laundry operations, this washer extractor is a must-have for businesses looking for reliability, efficiency, and longevity in their laundry process. WASHER EXTRACTOR

FC-1 SERIES 15, 20 Kg

(Steam & Electric)

Machine Type	Horizontal, Front-Loading, Washer Extractor
Capacity (Dry Load)	15 Kg, 20 Kg Kg
Drum Material	AISI 304 Stainless Steel
Outer Drum Material	AISI 304 Stainless Steel
Door Type	Front-loading, Manual Lock with Safety Interlock
Heating Type	Steam / Electric Heating (Heaters inside outer drum) optional
Motor Type	Inverter Controlled, Heavy-duty Induction Motor
Drive System	Belt Drive
Control Panel	PLC with Programmable Cycles
Electrical Supply	3 Phase, 415 V, 50 Hz (customizable)
Water Inlet	Hot & Cold Inlet Valves (Solenoid Controlled)
Drain System	Large Bore Drain Valve / Ball Valve Type
Safety Features	Door Lock Interlock, Overload Protection, ELCB
Structure Construction	MS Powder Coated / Full SS Body (Optional)
Installation Type	Freestanding – No foundation required / Found in Anti vibration pad / Concret foundation
Optional Features	Auto Dosing System (optional)
